# Pillar III Report June 2023

# **Regulatory Capital Disclosures**

#### **Note to Reader**

The objective of Pillar 3 disclosure is to provide existing and potential stakeholders of Credit Europe Bank N.V (hereafter referred to as CEB or the "Bank") a higher transparency to assess banks' information required by Capital Requirements Regulation (EU) No 575/2013 on prudential requirements for credit institutions (Part Eight) and the final draft Implementing Technical Standards (ITS) on public disclosures by institutions of the information referred to in Titles II and III of Part Eight of Regulation (EU) No 575/2013.

The Pillar 3 disclosures are prepared at CEB consolidated basis and could be read in conjunction with the Annual Report of the Bank<sup>1</sup>. All amounts are reported in thousands of Euros.

CEB prepares the report twice a year. Semi-Annual report disclosed in a condensed format with key metrics and yearend version is a comprehensive version, which fulfils the standardized reporting and disclosure obligations to facilitate the comparability of information for benefiting all market participants according to CRR Art 433c.

#### **EU OVC - ICAAP information**

CEB conducts a detailed internal capital adequacy assessment on an annual basis. Internal capital adequacy assessment process (ICAAP) is a comprehensive assessment of all the major risks that the Bank is or may be exposed to. CEB is using its own processes and methodologies to identify, quantify and set aside internal capital against unexpected losses. Stress testing and scenario analysis are important parts of ICAAP to ensure capital adequacy under adverse circumstances. The outcome of this assessment is fed back to the Bank's strategic and operational management as well as its risk appetite and capital planning. The Bank maintains a robust and up-to-date capital plan over a medium-term horizon that is compatible with its strategic targets, capital resources and risk appetite framework.

On an annual basis, the summary of the ICAAP and the supporting documentation are shared with the competent authority, DNB for its review. DNB assesses the Bank's ICAAP as a part of the Supervisory Review and Evaluation Process (SREP). The Bank endeavours to fulfil all the regulatory and supervisory requirements like SREP capital requirement, overall capital requirement which includes combined buffer requirement, leverage ratio and MREL.
